25X1 1. In late April 1951, [redacted] the Satz Korn ration supply depot consisted of four-story storehouses, about 100 meters long and arranged in three lines. The billets of the guards are located in the eastern section of the depot. About 10 men were observed at sports there. *

25X1 2. On 29 April 1951, 23 boxcars were shunted into the depot by a Diesel engine [redacted]

25X1 3. In the morning of 23 May 1951, 16 boxcars towed by a Diesel engine were observed being shunted into the depot. Heavy motor traffic was observed at the main entrance on the east side of the depot. [redacted]

25X1 * [redacted] Comment. The present report confirms the 800th Ration Supply Depot in Satz Korn, which is known to be the distribution center for the entire Soviet Zone of Germany. [redacted]

25X1 [redacted] the depot is believed to be also supplied by truck, inland waterways, etc. [redacted]
